

Happy Mothers for Happy Babies

Love Breastfeeding

SWISS MADE 

 ARDO

Inspiring breastfeeding products

As a trusted partner of hospitals and breastfeeding experts, Ardo has been meeting the highest demands with its mother and baby range for many years now – both at home and in hospitals. Ardo products help moms reach their breastfeeding goals and let them hold on to a bit of independence – because free time is a luxury for every mother.

Happy Mothers for Happy Babies

The Swiss company also takes the safety and quality of its products as well as its responsibility towards society and the environment extremely seriously. Ardo's breastfeeding products can help mothers breastfeed for longer. The company therefore considers itself bound by, and is committed to, the provisions of the WHO Codex, because the proper management of breastfeeding in the first few weeks can determine its long-term success.

Benefits you can rely on

- A complete, specifically designed product range
- High standards of hygiene and safety
- Extensive expertise thanks to many years of working in cooperation with hospitals
- Excellent value for money
- **SWISS MADE** 

"Vacuum Seal" technology

High standards of hygiene and safety are achieved through "Vacuum Seal" technology

The proven "Vacuum Seal" technology serves as a safe barrier against bacteria and ensures that no breast milk or impurities can enter the connecting tube or pump. This provides reliable protection against contamination of the breast milk and thus prevents infection.

CARUM

BREASTPUMP FOR HOSPITALS AND HIRE

Ardo has developed the hospital-grade Carum breastpump to meet the most stringent requirements of both mothers and health professionals. The result is a powerful, reliable, sensitive pump which is ideally suited to meet different requirements.

Unique, individually adjustable stimulation and expression mode

The Carum hospital-grade breastpump has many benefits: it is powerful while also being ideally suited for use in sensitive situations. It is also unbeatable in the double pump sector thanks to its dual-piston technology. Other popular features of the Carum hospital-grade pump are its ability to switch between the expression and stimulation mode at any time as well as the large color display with its intuitive menu control. The "Vacuum Seal" technology gives excellent protection and prevents contamination.

- Fully automatic expression at the touch of a button
- Suction strength (vacuum) and frequency (cycle) settings can be adjusted individually and independently from one another – in both stimulation and expression mode
- Uniquely gentle switching between stimulation and expression mode
- It is possible to change between expression and stimulation mode at any time
- Sensitive setting for sore or painful nipples
- Easy to use and clean
- Mobile Stand Available Separately

Individual Phases

Closed System

Vacuum Seal

Sensitive Programme

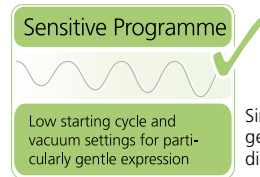

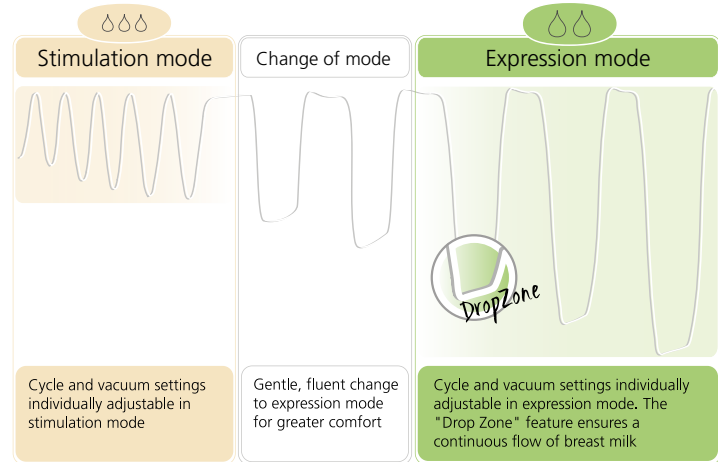

Individual Phases

Ardo breastpumps can be adapted to the mother's personal needs and to the baby's individual suction action at any time. The vacuum intensity and cycle settings can be individually adjusted.

For mothers who want to decide for themselves

Ardo breastpumps allow mothers to adjust the number of cycles and vacuum intensity themselves to suit their individual needs.

Carum is the first breastpump to allow the cycle and vacuum intensity settings to be controlled independently from one another in both stimulation and expression mode.

Simply unique – the "Sensitive Programme": Low and gentle starting cycle and vacuum settings especially for discomfort during expressing.

CALYPSO

ELECTRIC BREASTPUMP

The gentle breastpump

The Calypso breastpump offers a comfortable, efficient and discreet pumping experience for today's mothers.

Extremely easy to use – wherever you are

When a mother wants to express milk regularly and over an extended period of time, the Calypso breastpump is the ideal choice. The pump is very quiet to operate, so milk can be expressed comfortably and discreetly. Nevertheless, the suction strength is incredibly powerful. As the breastpump is so quiet and gentle, you can do something else at the same time, such as speaking on the telephone. The Calypso fulfills high standards of hygiene and safety and provides excellent protection for breastfeeding mothers. AA battery function when moms need to pump away from electrical power. Other outstanding features include its attractive and compact design.

- Quietest Breastpump on the Market – see our website for noise tests
- "Vacuum Seal" technology, integrated in the pumpsets, gives excellent protection and prevents contamination
- Suction strength (vacuum) and frequency (cycle) settings can be adjusted individually and independently from one another
- Unique warranty

Portability

The Calypso weighs less than one pound when six AA batteries are installed, making it ideal for daily use when mom needs a small and portable pump. The pump can also be used as mom tends to other duties and remains mobile.

Discreet

Moms love the small and ultra-quiet Calypso for work environments where pumping discreetly is challenging. It fits easily in the pump bag of the mother's choosing.

Unique warranty

With its extended warranty, irrespective of the purchase date, Ardo is the only manufacturer to offer a complete function warranty for an operating time of 400 hours.

1 year or 400 hours of warranty

The extended warranty is valid for a period of one year from the proven date of purchase or for a period of 400 hours of use (as long as the green LED display lights up), whichever is later.

CALYPSO PRO

MULTI-USER VERSION OF THE CALYPSO BREASTPUMP

The Calypso Pro (multi-user) is designed for WIC, loaner and rental programs with increased durability and warranty compared to single-user Calypso.

Designed for low-cost loaner and rental programs

Features independent vacuum and cycle adjustment - 64 total settings. „Vacuum Seal“ technology (when used with Ardo pumpset) creates a closed system - no milk in the tubes or pump. AA Battery function for operation away from electric power.

Rechargeable battery pack available separately (coming soon).

WHO Code Compliant.

- Ultra quiet
- Simple, intuitive use
- "Vacuum Seal" technology, integrated in the pumpsets, gives excellent protection and prevents contamination
- Suction strength (vacuum) and frequency (cycle) settings can be adjusted individually and independently from one another
- Excellent value for money
- 18 month warranty

CALYPSO DOUBLE PLUS

DOUBLE ELECTRIC BREASTPUMP

Includes Optiflow – soft silicone insert for active breast massage

The Calypso Double Plus breastpump allows you to gently express milk from both breasts at the same time. This stimulates milk production and reduces the expression time by half. The three different sizes of breast shell ensure that every mother can find a size to suit her nipple.

Contents: Calypso + 2 x Pumpset with 26mm breast shell + power adapter + 2 x Optiflow + 2 extra 31mm breast shells and 28mm breast shell inserts + cleaning brush + bottle holder

CALYPSO-TO-GO

DOUBLE ELECTRIC BREASTPUMP ON THE GO

Includes Optiflow – soft silicone insert for active breast massage

The Calypso-To-Go is the ultimate collection with all you need to be totally mobile when you are expressing. The collection includes a double breastpump plus a complete selection of breastfeeding accessories, easy to transport in a stylish breastfeeding bag with cool bag, cooling elements and Amaryll conversion handle for manual pump use.

Contents: Calypso + 2 x Pumpset with 26mm breast shell + power adapter + 2 x Optiflow + 2 extra 31mm breast shells and 28mm breast shell inserts + cleaning brush + bottle holder + 6 additional bottles + breastfeeding bag + bags + cool bag + cooling elements + handle

CALYPSO ESSENTIALS

INSURANCE BREASTPUMP

Designed for insurance options and available to DMEs only, the Calypso Essentials features the same pump body (including warranty and features) as the retail Calypso models, but includes less accessories for insurance price models.

Contents: Calypso + 2 x Pumpset with 26mm breast shell + power adapter + 2 x bottle stand

CALYPSO ESSENTIALS PLUS

UPGRADE INSURANCE BREASTPUMP

Designed for insurance upgrade options with special requirements, the Calypso Essentials Plus contains the Calypso Essentials plus stylish breastfeeding bag, cooling pack and 22mm inserts.

Contents: Calypso + 2 x Pumpset with 26mm breast shell + power adapter + 2 x bottle stand + breastfeeding bag + cooling elements + 22mm insert x 2

AMARYLL

INDIVIDUAL MANUAL BREASTPUMP

The Amaryll manual breastpump features an ergonomic design that allows for comfortable use.

Express milk efficiently, comfortably and manually

There's a simple reason why the Amaryll manual breastpump is the preferred choice of so many mothers and health professionals – it's easy to adapt to each mother's personal needs. It comes with a range of breast shells to suit different nipple sizes and the ergonomic, rotating handle means that it can be used by both right- and left-handed moms, as well as moms with small hands.

- Manual pump for gentle expressing
- Efficient and easy to use
- Optiflow massage insert with active massage effect
- Three possible handle positions for comfort

Contents: Pumpset with 31mm breast shell + Optiflow + 26mm breast shell and 28mm breast shell insert + cleaning brush + bottle stand

DOUBLE PUMPSET

PUMPSET FOR CARUM AND CALYPSO

Re-usable

- Includes 26mm breast shell
- Other breast shell sizes available
- With a safe barrier: closed system with "Vacuum Seal" technology prevents contamination

TULIPS

CONTACT NIPPLE SHIELDS

Specially designed for sore, painful nipples

- Assists with sucking or latching on problems (the special tulip contact shield shape allows baby to experience the smell of its mother)
- Also ideal for unusual shaped nipples
- To protect sore, painful nipples
- Sold in pairs (2)
- With storage box
- Available in M (20mm) and L (24mm) sizes

Also available in clinic bulk packs of 100 pairs.

EASY FREEZE

BREAST MILK BAGS

Hygienic and convenient

- Express milk straight into the protective bag
- Unique feature: integrated heat indicator
- The filled bag will stand on its own
- The double coating protects against unwanted odours

Contents: 20 bags + 2 reusable zip fastenings

EASY CLEAN

MICROWAVE BAG

Fast and safe

- For steam-cleaning breastfeeding accessories such as bottles and pumpsets
- Easy to use
- 100 applications (5 microwave bags)
- Saves energy and expense

Contents: 5 bags = 100 steam cleanings

Complete Line of Breast Shells & Accessories

Successful pumping depends on correctly sized breast shells and a comfortable pumping experience.

Ardo pumpsets and breast shells are designed to allow mothers to sit back in a reclining position while pumping which can promote better flow and reduce irritation to the nipple area. Breast shells and inserts are available in a wide range of sizes.

Available sizes:

- 22mm insert
- 26mm breast shell
- 28mm insert
- 31mm breast shell
- 36mm breast shell
- 26mm Optiflow massage insert
