MEET CALYPSO

The quietest breastpump on the market*

Your gentle breastpump

Closed System

The proven **"Vacuum Seal"** technology serves as a safe barrier against bacteria and ensures that no breast milk or impurities can enter the connecting tube or pump. This provides reliable protection against contamination of the breast milk and thus prevents infection.

Closed system

Comfortable

- Piston construction with optimized suction cycle for comfortable pumping experience.
- Pumpset allows relaxed pumping position – no need to lean forward while pumping.
- Choose soft silicone Optiflow inserts with active breast massage if desired.

Reliable

With its extended warranty, irrespective of the purchase date, Ardo is the only manufacturer to offer a complete function warranty for an operating time of 400 hours or one year, whichever is better for mom.

1 year or 400 hours of warranty

CALYPSO

The gentle breastpump

The Calypso breastpump offers a comfortable, efficient and discreet pumping experience for today's mothers. It's extremely easy to use - wherever you are.

Benefits You Can Rely On

Quietest breastpump on the market*

Closed system - no milk in the tubes or the pumps.

Piston Construction – Allows comfortable and efficient pumping experience with optimized suction cycle.

Portable – AA battery operation away from electric power, total weight of less than one pound (with batteries installed) and small size.

Flexible – Customize suction strength (vacuum) and frequency (cycle) settings individually and independently. 64 total settings for optimal customization.

Unique warranty - 1 year or 400 hours, whichever is better for mom.

SWISS MADE 

Feel The Difference. Try it for yourself.

Ask for demonstration of the Calypso to feel the difference piston construction offers.
